

SECURITY

Doctrine of Security

- © The doctrine of Security deals with the believer knowing for certain that the question of “eternal destiny” has been settled once for all.

What if?

- © What if our Salvation is not as secure as we have been lead to believe and there is someone interested in taking it away from us. What would he have to do?

Destroy the Work of the Father

Destroy the Power of God

Destroy the Promise of God

Destroy the Love of God
